

APPENDIX J

J.1 Gender Identity and Expression

“Gender identity” refers to a person’s internal, deeply felt sense of being either male or female, or something other or in between. Because gender identity is internal and personally defined, it is not visible to others. In contrast, a person’s “gender expression” is external and socially perceived. Gender expression refers to all of the external characteristics and behaviors that are socially defined as either masculine or feminine, such as dress, mannerisms, speech patterns and social interactions.”
