**Tracking Points:**

Each week, the Outreach Director will update the monthly and overall point charts which can be found in the student senate office. With this chart, Student Senators will be able to determine how many points they need in order to fulfill their semester outreach responsibilities. Each Student Senator must complete a minimum of 35 points by the end of the third legislative cycle of each semester. If this requirement has not been met by said date, the Senator will be called to meet with the Chief of Staff to discuss a plan of action. Any additional opportunities to receive points will be posted next to the point charts.

***Student Senators, in order to receive credit for their outreach efforts, must email the Outreach Director within 3 days of completion.***
